Art - Lisbon

Analogue Photography Workshop

WEEKENDS
MIN. 2 TRAVELLERS REQUIRED
30.00€ PER PERSON | 4 HOURS

For those who are old enough to remember the joy of developing photography and for those who are saturated with the digital age, follow and reconnect with the world around you through this unique experience.

In my analogue photographic experience you will have the opportunity to take 24 photos with an analogue camera as you discover the historic city of Lisbon, a city I know as the palm of my hand.

When we meet, I'll give each participant their own camera before guiding them through the film loading process, how to operate the camera, how black and white photography works, and, most importantly, how to take the perfect shot. We will then depart from our meeting place, an artists' studio in Baixa, leaving for a personalized walking tour that will give you great inspiration, taking you to the city's hidden treasures, ending at Alfama and heading to Feira da Ladra, Lisbon's famous flea market.

After lunch, we will return to the studio to develop your negatives and leave Lisbon with a private collection of photos that capture your unique view of the city.
